EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

2. This application is in condition for allowance except for the presence of claims 2-4 and 15-22 to inventions non-elected without traverse. Accordingly, claims 2-4 and 15-22 have been cancelled. MPEP 821.02.

3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed on 9/7/04, especially on pages 4, lines 17-27 to page 6, lines 20 are persuasive in overcoming the prior art rejections of the last office action.

It is agreed that Millard teaches away from using dies that are clamped around the workpiece as recited in col. 4, lines 47-56 and as shown in figures 1 and 4-7. Furthermore, Millard does not teach dies inclined in the longitudinal direction of the workpiece. Therefore, Millard would not be combinable with [AAPA] to arrive at the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
